

*10th Anniversary of  
Lunch with Legends*

...an afternoon with historic women

**March 13, 2018**

Sponsored by the League of Women Voters of Moore County, the Lunch with Legends is a program of live portrayals of historic women from American history. Dr. Grace Murray Hopper, Navy Rear Admiral who lead the team that developed the software program known as COBOL, a programming language for computers, will be one of our many Anniversary Legends.

The League is a non-partisan organization which works to improve our systems of government and impact public policy through citizen education and advocacy. Money raised will be used, in part, to award scholarships to Moore County students interested in Public Policy, Government, and leadership.

### **Advertising Opportunity**

The event program will be a 5.5"x8.5" booklet of sufficient page count to accommodate a number of advertisers. All inside pages will be black and white. Cover pages will be in full color. A range of ad sizes is available. Deadline for all ads is February 18.

### **Specifications/Formats**

Ads should be submitted in electronic format—properly sized PDF file preferred; with fonts imbedded with original font and graphic/photo files attached. PDF, JPEG and TIF files are all acceptable. Simple ad layout service will be provided.
